BOX 2/4 BOX 2/4 IP66

Control Unit for SAFETY UPGRADING TYPE 4 - SIL 3 SILCL 3 PL e

BOX 2/4 and BOX 2/4 IP66 control unit together with the Safety Light Curtains TYPE 3 (model LC3) upgrades the category to TYPE 4.

The control unit receive at its inputs the light curtain final switches, which controls their disparity and supplies in its output the two closed contacts in state of alert, coming from the two safety relays at guided contacts in redundancy selfcontrolled

Moreover the control unit provides these functions:

- External Device Monitoring (EDM) : control of the external devices : for example contactor, relay, etc...
- Led Diagnostic for failures signalling and detection
- Contact AUX (Ausiliary) closed with light curtain in alarm state
